

THOSE \$9.45 SUITS

We have five to eight hundred of those \$9.45 Suits left. There are black and blue Cheviots, Fancy Worsteds, Black Clay Worsteds, Fancy Cassimeres, the regular prices on which are \$12.00 to \$15.00. To get them into your hands where they really belong we have marked them \$9.45 each, and they will be for sale at that price only during our great February Revised and Reduced Price Sale. They are not cheap, half made shoddies; but every Suit is tailor-made from reliable all-wool cloth. The Linings and Trimmings are of the best, and each Suit is made up in the best style. If you want a suit for either now or future use here's your chance to buy it on a "find" basis. Don't let Saturday pass without owning one.

A WHISKY TRUST.

Kentucky Distillers Try to Form a Combine.

Louisville, Ky., Feb. 12.—A secret meeting of distillers from all over the state was held in this city late last night for the purpose of forming a whisky trust of all Kentucky distillers. Their object is to control the output and the price of Kentucky whisky. In pursuance to a circular sent out a few days ago by Col. H. S. Shorley for the New Hope Distilling company, the meeting was held last night in the offices of the New Hope distillery at First and Main streets. Every effort was made to keep the proceedings secret, but it was learned that the meeting was preliminary to a general meeting of all the leading distillers of the state.

The present movement has a wide scope, and its promoters hope to be able to prove to the distillers all over the state that the proposed trust will be greatly to the benefit of all. The promoters of the movement say it has been abundantly proved that the whisky trade of Kentucky, especially the distilling portion of it, ought to be more closely allied and more harmoniously united.

HIS IDEAS STOLEN.

A Chicago Man Who Invented a Flying Machine.

Chicago, Feb. 12.—The description of the flying machine that Leonard Clavson and Adam Beck, of San Francisco, claim to have invented and successfully tested, has brought forth the statement from Charles Andrews, of this city, that they have stolen his ideas.

Andrews claims that two years ago, while residing in New Orleans, he took a sketch of his machine to a model making firm on Poydras street, who moved away without delivering the model and Andrews never got track of them. In his model the lifting power is supplied by four wings working at right angles from a ball-bearing center. These wings are so constructed that two go up while two go down. Andrews says that he applied for a patent some time ago through Joseph Watson, a New Orleans attorney.

BERKSHIRE RECORDS.
Nashville, Tenn., Feb. 12.—The National Berkshire Record association elected the following officers: Ex-Gov. Erwin John P. Buchanan, Tennessee, president; Ike M. Wolcott, Hanover, Ohio, vice president; and E. K. Morris, Indianapolis, secretary and treasurer. After the business session, the convention attended what is called a seance in school. Six directors, five members of the executive, and a vice president, from each state, were present. The next convention will be held in Louisville, Ky.

CONSIDERING RATES.
St. Louis, Mo., Feb. 12.—Chairman Caldwell presided at a meeting of the Western Passenger association, held here today for the purpose of considering the situation at Kansas City, with respect to the Kansas City-St. Louis and Kansas City-Chicago business. All interested lines are represented at the meeting, which is being held behind closed doors.

FOUND NOT GUILTY.

Alice Platt Acquitted of Murder at Kansas City.

Kansas City, Mo., Feb. 12.—Alice Platt, the servant girl in the family of Lawyer Charles F. Murray, who, for the past week has been undergoing trial for poisoning the two Murray children, has been set free, the jury this morning returning a verdict of not guilty.

The trial has been rather sensational and the court room has been constantly filled with spectators. The announcement of the verdict created the wildest enthusiasm. Alice Platt went into hysterics and fell fainting into the arms of her sister, while the audience cheered.

WANT TO COMPROMISE.

Kansas Railroads Ready to Make Reductions.

Topeka, Kan., Feb. 12.—The movement in the legislature for a reduction in railroad freight rates has resulted in offers of compromise on the part of the railroad companies. For several days past there has been every indication that the legislature would adopt a maximum freight law, making general reductions.

Finally representatives of the lines interested came before the senate committee on railroads and stated that the railroad companies would agree to make a horizontal reduction of 10 per cent in freight rates, provided a number of freight rates should be enacted. This proposition was rejected, but the senate committee offered a counter-proposition agreeing to knock out the maximum schedule provided the railroad companies would agree to a 20 per cent reduction on grain and coal and 10 per cent on other freights. The railroads have this proposition under consideration.

COUNTERFEIT MONEY STOLEN.
St. Louis, Feb. 12.—Burglars entered the office of United States Secret Service Agent Murphy, in the Federal building here, and captured all the counterfeit money in possession of the department. Two gangs of expert counterfeiters are here in jail awaiting trial. The capture of the counterfeit money robs the government of its chief evidence and practically prevents the effective prosecution of the cases. The police believe the friends of the men now in jail committed the burglary.

SNOW IN PENNSYLVANIA.
Philadelphia, Feb. 12.—A heavy snow storm interspersed with hail and rain struck the mountain regions of the state, where there is still falling. At Harrisburg, where there is five inches on the level, the Pennsylvania railroad reports full trains on time.

FATAL EXPLOSION.
Youngstown, Ohio, Feb. 12.—By the explosion of the boiler yesterday evening at Lee's coal mine in Westfield, ten miles northwest of this city, John Wilk, aged 25 years, was killed and Wesley Kyle and J. G. Vetter were badly hurt, where there is five inches on the level, the Pennsylvania railroad reports full trains on time.

CURLING AT WINNIPEG.
Winnipeg, Feb. 12.—In the consolation event yesterday afternoon Hurlton, Duluth, defeated Gibson, of Birtle, 9 to 7.

SETTLED WITH
MERRITTS

John D. Rockefeller Has Given Half a Million Dollars to the Merritt Family.

After the Deal Was Concluded Alfred and Lon Merritt Started For Mexico.

The Compromise Made Without the Knowledge of Col. Harris, Their Former Attorney.

The famous million-dollar law suit of the Merritts against John D. Rockefeller will not be tried at the May term of the United States circuit court, and its familiar title will probably never again adorn the court calendar.

According to well-authenticated reports a settlement was effected in New York city about two weeks ago by J. L. Washburn, representing the Merritts, for \$500,000, cash in hand paid to Alfred and Lon Merritt. The negotiations were made quietly, and immediately after they were closed Alfred and Lon Merritt left for Guadalajara, Mexico, where they now are.

The compromise of the great case was made without the knowledge of Col. A. Harris, who was the leading attorney for the plaintiffs, and who conducted the great litigation through all of its devious windings in the district court in this county, where a verdict for \$450,000 for his clients was rendered June 13, 1895, and then into the court of appeals at St. Louis, Mo., which reversed the lower court Nov. 18, 1896.

The case was again set for trial at the May term of court in this city, the lawyers had everything in readiness to once more wage the great legal battle, when, presto, a little diplomacy, some line calculations, a matter of a half million in cold cash paid to the principals, and the most noted case in the history of the courts of Minnesota is brought to a termination.

The history of the Merritt-Rockefeller controversy is well known to everyone in this part of the country. The latest chapter, which, however, will not prove the final one, has reached The Herald sooner than the chief actors in it intended, and those in Duluth who are in a position to know its details are very reticent about discussing them. Col. A. Harris, whose name has been closely connected with it from the start, refused absolutely to have anything to say concerning it when approached by a reporter for The Herald this morning. The reports were given to him by the reporter, but they did not appear to surprise him in the least, he simply said:

"I refuse to either deny or affirm. Every question has its answer, and every question asked him concerning the reliability of information gathered up at that time. It is a fact established beyond all question that the friendly and business relations that have existed between Col. Harris and the Merritts for so long have experienced a violent rupture, and that they have recently begun, on anything but friendly terms. In fact, reports are current that they have had several wars of words within the past two weeks, on which occasion Col. Harris has taken occasion to accuse them of having acted in bad faith with him and of having attempted to defraud him of his interest in the claim against the Rockefellers.

It has been rumored around the street that the Merritts and their families are about to remove from Oneota, where they have lived for thirty years, to Mexico, never to return. Lon and Alfred Merritt are in Guadalajara, Mexico, and will not be back for a couple of months. L. P. Merritt and John D. Merritt are in Georgia looking over the country. All this has given rise to the story that they are to remove from Duluth. A. R. Merritt was said to be remaining here to close up affairs. He denied today that there is anything in the rumors, and classed them as absolutely false. He says that they have some investments down there which they are looking after and may be away two or three months, but as for leaving Duluth, nothing is farther from their minds, he said. Their families are still here, and will continue to be.

As to the rumors of settlement, Mr. Merritt refused absolutely to be quoted in any way. J. L. Washburn was, however, asked and would say nothing.

Joseph B. Cotton, local attorney of the Duluth, Missabe & Northern, who has also been connected with the Merritt-Rockefeller litigation, was seen by a Herald reporter this morning. He

like Col. Harris, declined to either deny or affirm the truth of the reported settlement of the case, and said that if such a settlement had been made he knew nothing of it personally. He declined absolutely to discuss it in any of its phases. But the settlement is a positive fact.

L. J. Merritt, who has not been acting in harmony with his brothers in their litigation with the Rockefellers, but who has been interested on the other side of the case, arrived in Duluth a few days ago from his home in Pasadena, Cal., and left Wednesday for New York. It is claimed by those who have been on the inside in the whole deal that he has a claim against John D. Rockefeller for services rendered, the settlement of which depended on the final disposition of the suit. His trip to New York is on business connected with the case.

LOOKS WELL FOR HUNT.

Matt Quay's Candidate For Public Printer Withdrawn.

Washington, Feb. 12.—(Special to The Herald.)—It is announced today that Senator Quay will not press his candidate for public printer because of the fact that nearly all the employees of the government printing office have been put under the civil service rules which leaves patronage to distribute. This practically leaves the field clear for L. P. Hunt, editor of the Mankato Free Press, who is a candidate for the place.

DULUTH FARED WELL.

No Other Harbor Has Been So Well Treated.

Washington, Feb. 12.—(Special to The Herald.)—Representative Towne is much pleased at being able to secure an appropriation of \$500,000 for the continuing work on Duluth harbor during 1898. He says Duluth fared better than any other project put under the continuous contract system in the last river and harbor bill.

WRIGHT REAPPOINTED.

Named Again For Commissioner of Labor.

Washington, Feb. 12.—The president today nominated Carroll D. Wright, of Massachusetts, as commissioner of labor (a reappointment).

STEEL RAIL PRICES.

Are Slightly Stiffened By the Heavy Demand.

Pittsburg, Pa., Feb. 12.—At 1 o'clock today the Carnegie Steel company announced that the price of steel rails stood at \$17 to \$18 per ton, the stiffening in price being caused by the heavy demand. The slashing of prices is still the principal topic in iron and steel circles here, but it seems that the Carnegie company is now controlling the price of rails. J. W. Gates, president of the Illinois Steel company, who was reported to be on his way to Pittsburg to confer with the Carnegie officials with a view to stopping the rate cutting, did not stop here but went on to New York. Mr. Carnegie, who was busily engaged at the company's offices, said that he would have no information to give out today. It is estimated that the rate have already looked sufficient orders to keep them running steadily for several months to come, giving employment to thousands of idle workmen.

WILL NOT APPEAL.

Berlin, Feb. 12.—Robert Knoebis, the American horse owner who on Feb. 5 was sentenced to nine months imprisonment and to pay a fine of 1000 marks, in addition to being deprived of his civil rights for two years, after having been convicted of trotting the mare Bethel on the German tracks under the name of Nolle Knoebis, has decided not to appeal against the sentence. He has less than two months to serve.

NOMINATIONS HELD UP.

Washington, Feb. 12.—(Special to The Herald.)—The nominations specially named by the president to be held up in the senate until after March 3, unless the members of the house interested request their confirmation. The senators have announced that they will pursue this course.

LABOR

Report By Commissioner Wright on the Effect of Female Labor.

The Reasons Given For the Employment of Women and Girls.

The Varied Work Now Performed By the Department of Labor.

Washington, Feb. 12.—The eleventh annual report of the department of labor, just transmitted to congress by Commissioner Wright, relates entirely to the work and wages of men, women and children. It shows that the proportion of women to the whole working class is increasing, while that of children is decreasing. The report was prepared in pursuance of a joint resolution of congress directing an investigation relative to the employment of men, women and children. The report is confined strictly to a comparison of the extent of employment and wages of 1895-96, or "present period," with the conditions which obtained some years ago (termed "former period") and during the present period by at least ten years.

The definite purposes of the investigation were to determine to what extent, if any, women were superceding men; to show the conjugal condition of the women who were employed; to compare the relative efficiency of men or women and finally to show the relative rates of wages received by each sex in each industry.

It was quite unnecessary to cover the whole country, that is, to collect information from all industrial establishments. The attempt, however, was made. The agents of the department, however, secured information from 107 establishments of various kinds, located in thirty different states and employing 145,351 persons, a number large enough to insure that the data collected was thoroughly representative. The complete data sought for, however, was obtained from only 81 establishments. These 81 establishments employed 65,569 persons in the former and 108,648 in the second period. Of this number in the first period 26,479 were males of 18 years of age or over, as against 43,116 in the second, and 4175 males under 18 years of age, as against 7510 in the second. In the first period 27,182 were females 18 years of age or over, and 674 females under 18 years of age, as against 65,832 and 12,724, respectively, in the second.

From these figures it is seen that male employees, 18 years of age or over, increased in the present period over the former period 62.1 per cent, while female employees of the same age period increased 61.7 per cent. The increase under 18 years of age increased 80.4 per cent, while females employed under 18 years of age increased 80.4 per cent. As collateral information, an interesting showing is made of the figures of the last three years, giving the number of females 10 years of age and over employed in all occupations in the United States, rose in its relation to the whole number employed from 14.6 per cent in 1870 to 17.2 per cent in 1890, while males decreased in proportion from 85.2 per cent in 1870 to 82.8 per cent in 1890.

The report throws considerable additional light upon the much-discussed question as to marriage among industrial pursuits. For the present period out of an aggregate of 79,587 women, 70,421 or 88.5 per cent were married, 675 or 0.8 per cent married, 201 or 0.2 per cent divorced, and 244 or 0.3 per cent unknown. The corresponding figures on this point are also analyzed. All of the 3,914,751 females 10 years of age or over engaged in the census figures on this point are also analyzed. All of the 3,914,751 females 10 years of age or over engaged in the census figures on this point are also analyzed.

If a military prisoner puts so much as a foot or a hand over the "dead line," he is shot through the head. The only safe way is to take no risks; go no where near the "dead line." If you are feeling "out of sorts," appetite weak, weight going down from the normal, it is time to take Dr. Pierce's Golden Medical Discovery. It cures indigestion, stimulates the liver, drives the bile and other poisons elements out of the blood, stimulates the lungs, throat, bronchial tubes, and makes rich, red blood, and builds up healthy tissue, solid muscle, nerve force and energy. Breathe the pure air, and take Dr. Pierce's wonderful "Discovery." It destroys the germs of consumption in the blood in the only true scientific way. It is the preparation of an educated, experienced physician. Dr. Pierce has been for nearly thirty years a consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. His prescriptions are recognized standard remedies the world over. The Common Sense Medical Adviser, Dr. Pierce's thousand-page family book with over three hundred illustrations and colored plates, will be sent for a limited time only absolutely free, by mail, on receipt of twenty-one cents in one-cent stamps to pay the cost of mailing only. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. If a handsome, cloth-bound binding is preferred, send ten cents extra (fifty-one cents in all), to pay extra cost of this handsome and more durable binding.

Dr. Pierce's Pleasant Pellets regulate the liver, stomach and bowels. By druggists.

of labor worked in establishments reporting; a list of occupations followed the investigation, and the wages in detail, of men, women and children in the investigation. The commissioner takes occasion to call attention to the varied work now performed by the department. It issues annual reports, special reports, bi-monthly bulletins of some of the latest news, giving the results of brief, original inquiries, and the like. The department is now investigating the effects of machinery upon labor and the cost of production; a compilation of war statistics in the leading countries of the world; an investigation of the liquor problem, in its economic aspects; an inquiry in collaboration with the state labor bureaus concerning the municipal ownership of gas, street and electric plants; an investigation concerning the conditions of Italians in Chicago, and a preliminary investigation of the economic progress of the negroes in this country.

THE OUTLOOK IMPROVED.

Bradstreet's Regards Future With Some Favor.

New York, Feb. 12.—Bradstreet's tomorrow will say: The more favorable features of the business week will include sales of 30,000 tons of steel rails for the collapse of the road which prompts the order for the rails for months to come; the advance in the price of cotton cloth following the sale of 50,000 pieces from accumulated stocks and the starting up of a number of important metal and industrial establishments throughout the East and Middle states.

The recent reduction in price of steel rails of 2 to 4 cents a ton was followed by 30,000 tons of steel rails for the collapse of the road which prompts the order for the rails for months to come; the advance in the price of cotton cloth following the sale of 50,000 pieces from accumulated stocks and the starting up of a number of important metal and industrial establishments throughout the East and Middle states.

Fifty Rebels Shot at Manila, Including the Notable Dr. Rizal.

Rebels Sunk Two Boats at the Mouth of the Lake.

Manila, Feb. 12.—The Commercial club last night gave a farewell dinner to Lyman J. Gage, the new secretary of the treasury. The banquet was held at the Auditorium and about 100 men, prominent in business and commercial circles, were present. In the course of his speech, Mr. Gage said: "Wisely or unwisely, I have pleaded for toleration, for patience with understanding, for a broad citizenship, for the inclusion of all the elements of citizenship which welcomes success, because it lends power and influence in the larger social life, to which duty and true happiness stand in close relations."

Mr. Gage said that the most advanced scientists now recognize that a very large number of so-called diseases find their origin in the nervous system. The physical organization known as the emotional center. These diseases cannot be reached by ordinary means, but must be addressed through mental impressions. This, Mr. Gage said, was the source of the trouble with the social state, and he continued: "It is unwise to be blind to the dangers in such a situation. Hysteria, though functional in its operation, may induce organic diseases. Most of the mind and strong hearts must, with comparative ease, find the path of right reason, find the path which leads to peace and safety. There are some who have been misled by the violation of the natural laws which govern in the realm of economics with the same ease as they find the path in the physical realm."

Under date of Jan. 4 the following advice have been received: Since the arrival of Governor General Palatka, some forty or fifty rebels have been shot at Manila, including the notable Dr. Rizal. He died very bravely, if somewhat theatrically, dressing himself in his best for the occasion. He wished to have his face to the firing party, but this was not allowed. He refused, however, to kneel down. The impression here is that it was altogether a mistake on the part of the authorities to deal with him as with a rebel. It is generally thought he was more a patriot than a rebel, and would make a long speech before dying.

The rebels have sunk two long boats at the mouth of the lake, have stopped navigation as far as that point up the river. Last week a river steamer was wrecked with heavy loss. Eighteen shots passed through it, while the saloon was completely riddled. The captain was killed, and several sailors and several sailors were also wounded. A column of 300 Spanish troops was completely annihilated in an ambush. The new troops arriving from Spain are a poor looking lot, evidently from the north of Africa. They have handled weapons before. It is reported that 150 of them are under arrest for refusing to go to the front and fight. The French gendarme Conlete and a Japanese courier, Yoshida, are the foreign marshals here. Governor Chen, of Hunan, has decided to open the mint for the coinage of a Japanese commission of investigation estimates the cost of laying a cable from Manila to Hong Kong at \$13,500,000, including two steamers. The annual gross receipts of the cable would be \$1,674,000 and the expenses at \$950,000.

A BATTLE WITH DEATH.

Tough Experience of Six Men at Chicago.

Chicago, Feb. 12.—Six men had a race with death at a hotel here last night and won by a hair's breadth. They were the crew of the big supply tug A. C. Van Rant. This tug carries supplies to the city of Chicago. Sixty-eight men were on board. The tug was in the river when it was struck by a leak while backing a tremendous load.

The men were up to their knees in water when the boat touched the dock. The tug was in the river when it was struck by a leak while backing a tremendous load.

UNMATCHABLE VALUES IN

KID GLOVES.

We have a great treat in store for the ladies. On Saturday morning, Feb. 13, we begin a sale of Kid Gloves that will be remembered by every lady in this city for years to come. Every woman knows how hard it is to get a good pair of gloves at a small price, and every merchant in the land knows how difficult it is to get a glove to sell at a low price that can be warranted to give satisfactory service, and we are more than pleased to be able to announce to our patrons that at last we are in a position to satisfy the most exacting customer in fit, style and price. Two hundred dozen Kid Gloves at the following unapproachable prices.

At \$1 a pair.

One hundred and twenty-two dozen Ladies' 2-patent clasp Plique Street Gloves, three rows heavy stitching on back and trimming to match, in English red, browns, tans, modas, black and white. In all sizes and as good a glove as you can buy elsewhere for \$1.50 a pair.

At 6 Cents.

Monday we place on sale 300 yards best quality "English" and "Teasel-down" Outing Flannels in an extra choice line of new styles—at the unparalleled low price of 6 cents a yard. These goods are sold the country over at 10c and 12 1/2c a yard, and it is needless to tell you what a bargain they are at 6 cents. Again the Big Store shows you its superior buying facilities, which enables us to retail goods at a profit for less money than competitors pay for them.

At the head of Lake Superior that is thoroughly up-to-date in business methods—only one store where you can always be sure of finding every thing new and choice in dependable qualities of merchandise at right prices—Only one store that does exactly as it advertises to do—Only one store where blow and bluster is an unknown feature—Only one store where an honest statement of facts is the only means used to attract trade. While other stores have stood still or slid down hill during the past three years of hard times and business depression, this store has doubled its business. Every month shows an increase over any corresponding month in its history. There was a time, 6 years ago, when nearly all Superior people bought their goods in Duluth, now the tables are turned and it is the Duluth ladies who patronize this Great Store to their own advantage. If you have tried trading here you know that it pays. If you have not done so ask the opinion of some of your neighbors who have. One trip across the bay will convince the most skeptical woman in Duluth that the largest and best selected stock of Dry Goods in the Northwest is at this store, and that prices are from 10 to 25 per cent lower than elsewhere at the head of Lake Superior. Seeing is believing, come and see for yourself. Take note of the items quoted below. Unless otherwise noted they are for

A GREAT DRESS GOODS EVENT

Saturday morning, February 13th, we invite your inspection of the grandest display of strictly new up-to-date Dress Fabrics ever shown in this section. During the past week we have received over 300 pieces in addition to the two hundred already in stock received since January 15th, making a grand total of 500 pieces 1897 Wool Dress Fabrics now ready for your choosing. This is an assortment that has no equal north of Chicago. More new Dress Goods at the "Big Store" than at all other stores in Superior and Duluth combined and prices the lowest. There is no need to pay a good round price for last season's Dress Goods when you can buy the choicest 1897 fabrics here for much less money. Every lady in the city knows that our Dress Goods stock was very low January 1st (it was less by \$5000 than before in five years) and this gave us an opportunity to buy an entire new stock. We do not wish to brag too much, but when we have a good thing for our patrons we want them all to know it, and in connection with this department it is no exaggeration to say that we have the only stock of stylish Dress Fabrics at the head of the lakes. It will give us pleasure to compare styles, qualities and prices with any store in America, and we hope you will give us an opportunity to substantiate every word of this statement. The items below are taken at random from this mammoth stock, they look cheap on paper, but they will look cheaper yet when you see them. **NOT CHEAP IN QUALITY, BUT CHEAP IN PRICE.**

25 Cents.

A splendid assortment of All-wool Dress Fabrics in 97 colorings—mostly Novelty Weaves, Etonianes, Canvas Cloths, Pin Head Checks, Granito Weaves, Novelty Stripes, Checks and Plaids, Serges, Henriettes, Habit Cloths, etc., etc., worth from 35c to 50c a yard—all in one big lot at 25c a yard.

50 Cents.

A grand display of 1897's stylish Dress Fabrics. Covert Cloths, Shepherd Checks, all-wool, Plaids, Canvases Weaves, Etonianes, Scotch Mixtures, Pin Head Checks, French and German Novelty, etc., etc., over 100 pieces to select from and not a piece in the lot but is worth 10c to 50c a yard more than we ask for them.

50 Cents.

A superb assortment of up-to-date Black Novelty Dress Goods in choice new styles suitable for dresses and separate skirts, qualities that you never saw offered for less than 60c, 70c and 80c a yard. Fifty pieces to choose from at 50 cents a yard.

It is impossible to give you but a faint idea of the immensity of this collection and the beauty of the fabrics on display. A personal inspection will convince you more thoroughly than all the newspapers in the world that the place to buy dress goods is at the "Big Store."

75 Cents.

Seventy-five pieces rich elegant Novelty Dress Goods from 42 to 50 inches wide—comprising all the new weaves brought out this season and in every conceivable color combination. They are qualities that have never been retailed for less than \$1 and \$1.25 by any store in the Northwest.

75 Cents.

Seventy-eight pieces rich Novelty Dress Fabrics in black, including 20 pieces of Priestley's world-famous goods in exquisite new designs, qualities that are sold the country over at \$1, \$1.15 and \$1.25—your choice Priestley's and all at 75 cents a yard.

One Dollar.

One hundred pieces Novelty Dress Goods in colors and black, embracing every weave brought out this season. A superb assortment of fashions fabrics and the grandest of 97 styles. They are desirable qualities at \$1.25, \$1.35 and \$1.50. Our special price is \$1 a yard.

Extraordinary Event.

SPECIAL SALE OF SILKS.

For Saturday and All Next Week a Great Sale of 5500 Yards of the Choicest Novelty Silks at Prices Below the Actual Cost of Production.

Last week our buyer secured this enormous lot of goods for Spot Cash at prices that enables us to offer to our customers the greatest bargains ever known in Silks. This sale will be the event of this year, and a very important fact for you to remember is that there is absolutely not one yard of old goods in the mammoth assortment—not an inch but has been produced since Jan. 1, 1897. They are the very cream of this year's fashions, and this fact, taken in connection with the extraordinary low prices at which we offer them, makes this sale unparalleled in the history of Silk selling in the Northwest. It is utterly impossible to exaggerate the values and the importance of the offering to every woman within a hundred miles of Superior.

5500 yards in two great lots. Five tables in center of Main Aisle devoted to these goods.

Lot 1--75c a yard.

Three thousand yards rich Novelty Silks that sell regularly at \$1, \$1.25 and \$1.35, all in one grand assortment at 75c a yard. Changeable Taffetas, Satin finished Brocade Taffetas, Etonian Silks, Louise Silks, Canvas weaves, Printed Foulards, Grenadine Silks, etc., etc. Two hundred styles to select from and all at one price, 75c a yard.

Lot 2--98c a yard.

Two thousand five hundred yards of the richest Novelty Silks brought out for 1897. Goods that should sell at \$1.40, \$1.50, \$1.75 and \$2 a yard, all in one immense lot at 98c a yard. The grandest collection of stylish Silken Fabrics ever shown in the Northwest, and words cannot do justice to this magnificent showing of fashions' richest fabrics. Your choice of the lot at only 98c a yard.

Extra Values in... Black Silks.

Special at 75c a Yd.

Two hundred yards twenty-one inch heavy black all-silk Satin Duchesse—every thread pure silk—beautiful lustre and warranted for wear—regular value \$1.25 a yard.

Special at \$1.00 a Yd.

One hundred yards extra heavy Moire Velour, in black only, a quality that would be cheap at \$1.50. These goods are the thing for skins. Be sure and ask to see the fabric—it is the latest thing out.

Special at \$1.00 a Yd.

One hundred and seventy-five yards extra fine and heavy twenty-four inch black satin Duchesse—a quality that any other store but this would ask \$1.50 a yard for, but our special price as long as they last is \$1.00 a yard.

Special at \$1.35 a Yd.

One hundred and sixty yards black Moire Antique Velour, heavy and rich, and the handsomest silk fabric ever produced. These goods are selling in Chicago at \$2.00 a yard, but our special price is \$1.35 a yard.

Special Sale of... Stylish Laces.

Nearly every day for the past two weeks fresh shipments of laces have come to the "Big Store," and now our stock is complete and ready for your inspection and approval. Every novelty brought out this season is here, besides a full assortment of all the staple lines that sell freely the year around. By consulting your fashion papers you will find that this is to be a lace season; in fact, all indications point to this being the banner year for Laces of all kinds, and the demand is not confined to any particular line of goods, but fashion's favor has been extended to almost every style and color. The demand has been already so large that the most popular lines are nearly all sold up, and importers are obliged to decline orders, and nowhere in the Northwest can you find such a grand assortment of thoroughly up-to-date Laces as at this store. Seeing is believing; come and see for yourself. Note the items quoted below and ask to see them. Our prices are at the very least one-quarter less than you would pay elsewhere.

Fine White Oriental Lace, 3 inches wide, at 5 cents a yard.

The Spicer-Fanning company have a page advertisement that cannot fail to interest every lady reader of The Herald.

William Burnett, who was charged with striking Maggie Swanson during an altercation in the Lowell block, changed his plea from not guilty to guilty yesterday afternoon and was fined \$5 and costs which he paid.

The Ancient Order of Hibernians will give a dance this evening at Odd Fellows hall on Lake avenue.

The Scottish Rite Masons worked the fifteenth degree for the first time in this city last night.

Deputy Sheriff Dashi and Bates left this morning for Stillwater, taking with them one John Hendrickson, who goes to that summer and winter resort for two years and two months. Hendrickson, together with a jailer, was convicted of stealing some clothing from a trunk belonging to Ernest Voss, and were given the above sentence for their crime.

John Starnal, one of the two young boys indicted by the grand jury for burglarizing a St. Paul & Duluth box car, was released this morning on \$300 cash bail. Judge Ensign having allowed bail in that sum. Starnal is of a tender age to be charged with burglary, as he is scarcely 10 years old.

Current events, Talbot's Hygiene. The Junior class gives its first reception of the season at the high school tonight.

John McNary, employed in a lumber camp at Moose Lake, was struck by a log while engaged in logging yesterday, being knocked down and badly lacerated about the hips. No bones were broken, but it is feared he may have suffered internal injuries. He was taken to St. Mary's hospital.

Duluth Dancing Academy. Professor Grant will organize the best beginners' class of the season for adults Monday evening, Feb. 15.

Working on the Report. The grand jury adjourned yesterday afternoon to tomorrow morning. Today, however, a committee of jurymen were working in one of the jury rooms over the report to be made by the grand jury. The fact that this report is in process of construction indicates that the work of the jury is nearly at an end. It is expected that the jury will be discharged Monday or Tuesday. No more investigation indictments are looked for.

A UTAH INVESTIGATION. Salt Lake, Utah, Feb. 12.—A duplicate of Senator Riddell's resolution to investigate the senatorial election was introduced by Representative Sloan in the house. Amendments were made regarding the scope of the investigation. After a long debate in the house last night the resolution was passed. It was so amended that the investigating committee shall consist of the governor, the attorney general, three judges of the supreme court. Provision is made that the expenses of the investigation shall not be paid by the state.

HANNA ON A TRIP. Cleveland, O., Feb. 12.—Chairman Hanna, accompanied by Major Charles P. Dick, and a number of other friends, left the city for Zanesville in a special car over the Cleveland, Canton & Southern road, at 7 o'clock this morning to attend the Republican league banquet tonight. The party will arrive in Zanesville shortly after noon and will return to Cleveland tomorrow.

SPOIL IN NEW YORK. New York, Feb. 12.—A snow storm struck this city at 12:20 a. m. and by 1 o'clock between five and six inches of snow and sleet had fallen. The wind is increasing and is now blowing thirty-five miles an hour. It is an on-shore breeze and owing to a dense fog, which prevails along the coast, navigation is made dangerous. Up to 10 a. m. the temperature in this city was below the freezing point, but it is beginning to rise, and tonight will turn the snow and sleet into rain.

Crete

The Situation in Regard to Crete Continues to Grow Graver.

Word Received at Constantinople That Heraklion is on Fire.

The Greek Government Will Prevent Turkish Troops Debarking in Crete.

Constantinople, Feb. 12.—The island of Crete news is growing more serious every day, and it is understood that several of the embassies have received dispatches that Heraklion is on fire. In official circles here the only solution of the Cretan difficulty seems to be a European occupation of that island. It is understood that instructions have been sent to the commanders of the foreign warships to prevent by force if necessary, any intervention upon the part of the Greek warships.

WARNED BY AUSTRIA.

Greece is Notified That Something May Drop.

Vienna, Feb. 12.—The Vienna cabinet has addressed a most severe warning to Greece. It is further learned from exclusive sources that the powers have informed Turkey that they cannot force Greece to withdraw her fleet, but will leave Turkey a free hand.

Anarchy is reigning at Athens. The ministry was only temporarily saved by embarking in a mad enterprise. England is accused secretly of backing Greece to force Russia's hand. All the evening papers condemn in the strongest terms Greece's action.

The Neue Freie Presse warns Greece that if it persists in its policy, it will be justified in attacking Greece with disastrous consequences to Greece. The same journal publishes a telegram from Constantinople showing that the whole of the Cretan troubles have been long and seriously considered by a Cretan committee at Athens, whose leaders sent numerous embassies to Crete, honeycombed with the island with seditious pamphlets.

MAY RESIST SERIOUSLY. London, Feb. 12.—The Pall Mall Gazette says there is reason to believe that the government of Great Britain regards the dispatch of the Greek fleet to Crete as a very serious matter and as likely to involve the gravest consequences, adding: "No intimation of the intention of Greece was conveyed to any of the powers and the preparations to carry them into effect were carefully kept secret. It may be confidently expected that the government of Great Britain will adopt a very firm attitude and that immediate and vigorous steps will be taken to neutralize the effect of Greece's action."

GREECE IS AGGRESSIVE. London, Feb. 12.—D. G. Metaxas, the Greek charge d'affaires here, called at the foreign office yesterday and presented a note expressly stating that the Greek government had decided to prevent Turkish troops from debarking in Crete by all the means in its power.

MUST BE RESTRAINED. Vienna, Feb. 12.—The semi-official Fremdenblatt today says: "Greece must be restrained from going any farther. Austria has already acted and she will not assist Greece nor hinder Turkey in sending troops and responding with hostilities to the aggressive action of Greece."

SYNAGOGUE PILLAGED. Tripoli, Feb. 12.—The Turkish officials having withdrawn the guard from the Jewish quarter here, a mob of Mussulmans invaded it, pillaged the synagogue and destroyed the scrolls of the law.

A "RINGER" FOR TAMPA. An Incident Which Interests the Coast Sports.

San Francisco, Feb. 12.—A "ringing" at Iron Hill, Md., has created considerable interest, as many of the people mentioned in connection with it are well known on the Pacific coast. The editor of a local sporting paper was shown a letter written by William Matton, in which he admitted making a big "clean up" on Tampa at the Iron Hill track recently. The backer who rode the mare is none other than Jockey Dingley, who rode for Higgins Brothers, of Montana, last season.

As the real Tampa, by Chesapeake, dam by Monte Christo, is at Stockton, there have been many conjectures as to the real name of the mare at Iron Hill under the name of Tampa. May W. is, all probability, the mare that has been masquerading at the Outlook track under the name of Tampa. This is the mare by Eagle Plume that ran Ogden the future winner, to a head in a 2-year-old race in Montana last season. No one has heard anything about May W. for a long while, and it is a matter of notoriety that she was stolen from a former owner and taken East, where she was kept in hiding for some time in order to avoid a law suit.

"Oregon George" is the trainer of May W. and Matton is known to have been in the mare, which would indicate that she is the "ringer" for Tampa.

PETITIONS OVERRULED. Frankfort, Ky., Feb. 12.—In the case of Scott Jackson and Alvin Wingo, sentenced to be hung for the murder of Pearl Bryan, the court of appeals today overruled the petition for a new hearing. The records were immediately transmitted to Governor Bradley, who has thirty days in which to consider the case and fix the date for the execution. It is believed that Governor Bradley will give the case immediate attention.

RAN THE BLOCKADE.

The Dolphin Slipped Around Admiral Buncce's Fleet.

Washington, Feb. 12.—The blockade runners at Charleston have scored the first blood, and in spite of all of the preparations made by Admiral Buncce to detect any attempt to pass the long line of ships he had strung out across the entrance of the harbor the Dolphin, not by any means a fast boat, nor as invisible as a regular blockade runner, slipped quietly around one end of the line on the 5th inst. when the department next heard of her she was at the bar of St. John's river, Fla.

The officials at the department were puzzled when they were notified by Commander Clover by telegraph of his capture of the Dolphin. They were relieved here from persons on the squadron explain her movement as a successful running of the blockade, when the full running of the blockade, when the fleet is on the watch, not only against the runners of the Dolphin, but of the appearance of the little Vesuvius, swifter than anything in the fleet, and as likely to involve the gravest consequences, adding: "No intimation of the intention of Greece was conveyed to any of the powers and the preparations to carry them into effect were carefully kept secret. It may be confidently expected that the government of Great Britain will adopt a very firm attitude and that immediate and vigorous steps will be taken to neutralize the effect of Greece's action."

THE DOINGS OF CONGRESS.

The Senate Wants Sylvester Scovell Given Protection.

Washington, Feb. 12.—Mr. Hill presented in the senate a resolution which was agreed to without opposition or comment, reciting that Sylvester Scovell, a citizen of the United States, is under arrest in Cuba, upon no specific accusation of crime, the prisoner being held in a disturbed part of the island and in imminent danger of death through disease or violence. The resolution concludes with a request of the secretary of state to use his good offices in Cuba to secure the removal of Scovell to the United States, which was concluded on the 18th day of April, 1896, is declared to be abrogated.

The resolution remained on the table. Mr. Morgan following with the following joint resolution: Resolved, etc., that the treaty known as the Clayton-Bulwer treaty between Great Britain and the United States, which was concluded on the 19th day of April, 1850, is declared to be abrogated.

Mr. Sherman reported a joint resolution appropriating \$5000 for congressional expenses incident to the forthcoming inauguration ceremony, and it was passed.

The bill was passed authorizing the appointment of an additional judge to the United States court in Indian Territory.

Among the bills presented was one by Mr. Prye for the participation of the cadets at West Point and Annapolis in the inauguration ceremony. At 1 o'clock the senate went into executive session to consider the arbitration treaty.

The executive session opened with a notice by Senator Blackburn that he probably would soon move the postponement of the further consideration of the Anglo-American treaty until the next session of congress. He said in explanation of his purpose that he thought there should be an early understanding on this point, in view of the fact that the present session was rapidly drawing to a close, but he added that he would not wish to take the responsibility for such a motion until there could be a somewhat general expression of opinion as to its advisability. Senator Hoar followed in a speech favoring the treaty. Senator Stewart of Nevada made an onslaught on the treaty, opposing it on general grounds and especially on the ground that the United States should not treat with Great Britain.

The senate in executive session continued the nomination of Martin Knapp, of New York, to be interstate commerce commissioner. No opposition was manifested.

THE HOUSE. Washington, Feb. 12.—The house today resumed consideration of the post-day appropriation bill, immediately after the reading of the journal. It was arranged that the general debate on the bill should be held on Monday, the 15th day of February, 1897, at 10 o'clock a. m. of that day.

WEST END

Frank P. Tims Mentioned
For a Board of Public
Works Place.

Six Hundred Feet of Pipe
Already Delivered to
the City.

Epworth League Entertainment
Not Favored With a
Large Attendance.

Frank P. Tims, the contractor living on Fifty-second avenue west, is the latest West Duluth possibility for member of the board of public works to succeed M. J. Davis. There is a growing feeling among the residents of this part of the city that at least one member of this important board should be a resident of the West End. Mr. Tims is the third West End man whose name has received prominent mention in this connection, the others being M. Jacoby, formerly connected with the West Duluth Water company, and Mr. Smith of the Ironstone Steel works.

WATER PIPE WORK.
Six hundred feet of the steel for main pipes for the new water works plant has been delivered at Lakeside by the Hugo Iron works. A new drill for use in making these pipes is expected to arrive at the works today and if it does another few feet of men will be put on and the work prosecuted day and night next week.

THE LEAGUE ENTERTAINERS.
Owing to the inclement weather the Epworth league at the Assembly hall, Duluth, last night was not large but the program rendered was none the less enjoyable. All of the numbers elicited demonstrations of hearty approval. The entertainment was opened with a recitation by Miss Lela Sparks. Mrs. Charles rendered a very pleasing solo with guitar accompaniment which was accorded an encore. The remainder of the program was as follows: Recitation, Miss Margaret; vocal solo, Mrs. Lela Sparks; recitation, Miss Maud Coughlin; quartet, Mr. and Mrs. Jewell and Mr. and Mrs. Adams; recitation, Miss Lela Sparks; instrumental duet, Miss Lela and Miss Robinson.

At the conclusion of the program light refreshments were served and a pleasant social time enjoyed. The proceeds of the entertainment will be devoted to the general expenses of the church, instead of to the purchase of a new organ as originally intended.

WEST DULUTH BRIEFS.
The ladies of the Congregational Women's league gave a social last night at the residence of G. E. Turner, at Dunbar.

A Valentine social will be given to-night at the residence of Dr. Carlos R. Keyes on Fifty-second avenue west. It is deserving of a liberal patronage for the proceeds are to be devoted to the free reading room, which has been established with such flattering prospects of permanent success.

Lost—Bunch keys. Finder return to West Duluth Steam laundry and receive reward.

Capt. Holmberg of Company H has been appointed one of judges of the competitive drill between Company C, of Duluth, and I. of Superior.

H. A. Schreckel, a mail carrier, is now located in the Palmer block.

West Duluth Covered Rink.
Music Tuesday night by City band.

Grand Skating Carnival, West Duluth Covered Rink.
Thursday evening, Feb. 18, a handsome gold medal will be donated by the managers for the championship of Duluth. Race one mile, open to all amateurs. Races called at 8:30 sharp. D. N. Morrison, champion quarter and half mile skater of the world has been engaged at great expense, and will endeavor to lower the record for those two respective distances. Music by City band. Admission, 25 cents.

Thousands sink into an early grave for want of a bottle of Dr. Williams' Pink Pills. This great remedy would have saved them.

A PRIVATE HOUSE.
Globe Elevator Co.'s House No. 3 no Longer Public.

The Globe Elevator announced today that its elevator No. 3 at West Superior will be a private warehouse hereafter. This is done for the purpose of re-evaluating and handling of grade grain, and elevators No. 1 and 2 will remain public houses. Before making this change the company bought up every warehouse receipt it had outstanding.

WALLER STILL LEADS.
Pittsburg, Kan., Feb. 12.—In the day bicycle race Walter and Glenn, both of whom suddenly collapsed last night, caused great surprise by showing up fresh and strong this afternoon. All of the riders are in good condition and are going at a fair gate. Score at 1:30 p. m.: Waller, 102; Glenn, 102; Scheel, 104; Hall, 102; Foster, 100; Kuehl, 95.

HOW'S THIS?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Dr. J. C. Cheney & Co., Props., Toledo, O. We, the undersigned, have known Dr. J. C. Cheney for the last fifteen years, and know his medicine to be perfectly reliable in all cases of Catarrh of the bladder, and are able to carry out any obligation made by their firm.

Wheat Lost a Cent and a Half Today, After Opening Strong.

No Advance at Liverpool Which Was Regarded as Disappointing.

World's Shipments Should Show a Heavy Deficiency on Monday.

Wheat sold down with a rush today. It opened a shade stronger and advanced sharply but soon broke and ruled weak during the remainder of the session. The strength immediately at the opening came from the disappointing political news from Europe and caused some covering by shorts, although Liverpool was disappointing in that it showed no advance.

DECLINE

Smouldering fires of old disease
lurk in the blood of many a man, who fancies himself in good health. Let a slight sickness seize him, and the old enemy breaks out anew. The fault is the taking of medicines that suppress, instead of curing disease. You can eradicate disease and purify your blood, if you use the standard remedy of the world,
Ayer's Sarsaparilla.

THE PRODUCE MARKET.

Trade improves slightly in the Michigan street market. Great expectations are based on the middle of March. Eggs are plenty and of good quality. Quite a little green stuff is in the market. The prices have to be charged. The figures are changed daily.

The party, preceded to the future home of a young people in Palmetto street, where the happy couple were a wedding supper was served.

The pair were the recipients of a number of handsome and valuable gifts. The wedding supper was presented by the pupils of the Sunday school, of which the groom is superintendent. Among those who sat down at the wedding supper were the groom's parents, who were present at the wedding of the bride. The wedding of the bride occurred at the same church twenty-four years ago. The groom is the youngest son of the bride, who is the chair lady of the local assembly of federated trades. The bride is a charming young woman, and has a large circle of friends.

Freight Rate Matter.

Senator Ringdahl has written a letter to John J. Newell asking him to initiate the question of calling a convention of the citizens of the Sixth district in order to get an expression relative to the matter of reduction of freight rates. Senator Ringdahl desires that action be taken before Feb. 22, the date set for the hearing of his bill providing for reduction. Mr. Newell has referred the matter to Mayor Truelsen and the latter will probably bring it up at the meeting to discuss the question of uniform charter legislation to be held at the city hall this evening.

SCHMIDT

St. Louis County's Member
Gives His Opinion of Some
Pending Measures.

He Thinks the Feig Bill Is
Inspired By Andrew
Carnegie.

Not Very Sanguine as to the
Normal School Appropria-
tion Bill.

Duluth and St. Louis county interests will be materially affected by the legislation enacted by the lawmakers at St. Paul this winter, for the indications are that most of the bills thus far introduced and in course of preparation, in which the people at the head of the lakes are specially interested, will be favorably considered and eventually given a place on the statute books. Some of these measures are calculated to inure to the benefit of the public, while others can justly be classed as vicious, but good Cleveland silks seem in a fair way to work through the legislative mill.

Representative P. C. Schmidt came to St. Paul this morning, and to a reporter for The Evening Herald gave a brief outline of the measures in which Duluth and St. Louis county have a greater interest than other sections of the state. He is in the opinion, Mr. Schmidt is opposed to railroad legislation, and is fighting both the Douglas bill, which provides for an arbitrary reduction of rates on coal and grain, and the Feig bill, which fixes the maximum rate on iron ore at 10 cents per ton. For these reasons, he is not very sanguine as to the prospects of the Douglas bill, which provides for an arbitrary reduction of rates on coal and grain, and the Feig bill, which fixes the maximum rate on iron ore at 10 cents per ton.

Mr. Schmidt also believes, will be reported favorably by the committee on railroads, and he is inclined to the opinion that it will become a law. bill will remedy the evils complained of, and predicts that it will fall of practice. He admits that the great injustice is being done laborers in the lumber camps, who are frequently paid in time checked payrolls, and that Minneapolis or some other point, inaccessible to men without money, and they are compelled to part with their money at heavy discounts. However, he has no remedy to offer, and knows of none that has been prepared.

The Myers bill, which Mr. Schmidt says Mayor Truelsen thought was a scheme to authorize the city council of Duluth to buy the gas and water plant, is simply a measure authorizing all cities to make contracts with corporations for lighting either by gas or electricity, and gives councils the power to fix rates for illumination. Under the provisions of this bill the city council of Duluth could fix the price of the Duluth Gas and Water company, provided the present contract with the company is decided invalid.

Mr. Schmidt has been well for the past two weeks, but he is not much improved. He will return to St. Paul Monday morning.

THE JURY DISCHARGED.
No Verdict in the Hill vs. Winston Case.

After a deliberation of forty-two hours the struck jury in the case of Hill vs. Winston Bros. gave it up at 10:30 o'clock this morning, and were discharged. The jury went out at 5:30 o'clock Thursday afternoon, and all through two nights and a day, and that day it held the jury in each other to reach an agreement. This morning the jury was called before the court and advised that it was practically all of one mind. One of the jurors was excused yesterday because of illness, and the fact that the jury was not in agreement. About 10:30 it reported a disagreement, and was excused. The jury stood nine to two in favor of the defendants, and the nine are not sparing in their anathemas of those who opposed them. After being released they spent some time dwelling on the stubbornness and the blindness to argument and reason of the two who had held out so long.

FORGY GETS IT.
Captures Clerk Richardson's Horse in a Raffle.

By a caprice of fortune, Officer Forgy last evening became the owner of a horse, buggy and harness, all for the sum of 25 cents, he holding the winning number in a raffle for the outfit that was conducted at A. Hirsch's clear out of the building of Trade Territory. The equipment won by Forgy bids fair to become historic. It was won some months ago by City Clerk Richardson at a raffle, his investment being 17 cents, having been put up by a member of the police force. The fact that it yet remains an article of the city hall indicates the horse sense on the part of the horse. The fact that the chances have fallen twice in favor of a law, he is in the opinion, Mr. Schmidt is opposed to railroad legislation, and is fighting both the Douglas bill, which provides for an arbitrary reduction of rates on coal and grain, and the Feig bill, which fixes the maximum rate on iron ore at 10 cents per ton.

any skinkings must be a royal road to wealth. It teaches women to walk fast and look like a princess at last a boot that is practical and simple." The newest skinking boot, however, is really a very thick sole, and the result is a very thick sole. The skink is made of a very thick sole of kangaroo. The preference is for leather shoes, and then riding-boots. The average height is twelve inches, and they are fitted tight across the instep, so as to give firm support to the feet. It is really economy to make \$12 into skinking shoes, for the pull the shoes are of the same size apart in a very short stride; when a skinking shoe is not put on, the foot is a good deal smaller. In the mountains wear is comparatively light.

WALKING SHOES.
The new walking shoes have been taken over. Perhaps this is because they are no longer worn by English ladies, and have learned them that no firm sole is the place of a creaky walk. For it is a very thick sole, and with an inch of cork, and at heel, is most comfortable. The new part of the foot, from the middle of the heel, rests firmly on the sole, and the width of the shank is so arranged in order to give a free and a most comfortable walk.

For this year this year is cut an inch or

The person is wearing a dark, patterned tea jacket and a light-colored skirt. The background features a large, stylized tree with a thick trunk and a dense canopy of leaves. The overall style is reminiscent of early 20th-century fashion illustrations.

WEST END

West Duluthians Want to See the Brass Works Make the Valves.

Would Enable the Works to Be in Operation Many Months.

Street Railway Company is Removing the Snow From the Streets.

The wish among West Duluth people is both sincere and general that the council at its meeting tonight will decide in favor of the wedge-shaped valves for the new water works plant and let the contract to the Duluth Brass Works. This contract means the employment of a number of residents and taxpayers of West Duluth and the keeping of the money paid for valves by the city, at home for distribution in the various channels of trade. Should the contract be let to the home firm the brass works would be operated to their full capacity.

REMOVING THE SNOW.
Fifty-fifth avenue west was badly filled with snow Saturday, and after the street railway company's snow plows had pushed it from the track and piled it up on either side the street was well high impassable for sleighs. Today a number of teams and workmen are employed in removing it. It is being dumped in the hole back of the Manufacturers' Bank building.

SMALLEST DOG DEAD.
West Duluth has for a number of months claimed the distinction of being the home of the smallest dog in America. His name was Clinker, he was ten months old and he weighed but one and one-fourth pounds. Clinker was the property of John C. Clinker, a contractor living on Fifth street, near the Manufacturers' Bank building. He was a small, fat, black and white, apparently very angry, and his brilliant career will be paid to the storm for he passed calmly away while enjoying the warmth and comfort afforded by Mr. Clinker's comfortable home. When the spring thaw comes a suitable monument will be erected to the memory of the departed Clinker.

A VALENTINE PARTY.
Miss Cowan gave a Valentine party to a number of her friends at the residence of her mother, Mrs. Arvin Isley, 425 Fifth street, Saturday night. Each of the guests was presented with a handsome Valentine and the evening was enjoyed in playing games and practicing customs that have been followed for years by young people on St. Valentine's eve.

THE BLAST FURNACE.
Tumors that the blast furnace is to resume operation in the near future are again afloat, and the rolling mill will be started up and as stated by George Ruple in a recent interview in The Herald, the rolling mill will be started as soon as the revival of business warrants it, but when that time will come is not known, although all interested in the plant have been waiting long and deferred. Mr. Ruple and others interested in the works are more anxious to see them in operation than the others who expect employment in them and they will keep them closed no longer than is absolutely necessary.

WEST DULUTH BIERIES.
Rev. Dr. Furler will return to his home here Wednesday to enable him to deliver a lecture in the First Presbyterian church, Duluth, Wednesday evening, under the auspices of the Young Men's Presbyterian league. Mrs. C. E. Culley of Grand Rapids is the guest of her sister, Mrs. George Nickols. She will go from here to Farmville, her husband having purchased the Courier of that place.

The storm Saturday compelled Mitchell & McClure to close their store in its operation today, however, as usual.

Company H will hold a drill meeting at the Armory tonight. Sergeant Barry of the regular army, is up from Fort Snelling and will act as drill master.

It required a large force of men all of yesterday to clear the walks and make them passable after the heavy storm of Saturday.

The Independent Order of Good Templars of West Duluth do not give dances. It is against the principles of the organization. However, the Good Templars' hall is sometimes rented to dancing parties.

The valentine social which was to have been held at the residence of Dr. Keyes on Fifty-seventh avenue west Saturday night, was postponed until tonight. The proceeds will be devoted to the public reading room.

An incident fell at the house of Neils Christensen on Saturday. A young man west near Polk street yesterday morning brought out the fire department.

MR. WHIPPLE'S BOND.

Has He One or Has He Not, is Asked.

Has County Treasurer Whipple a bond or has he not? There is a difference of opinion as to that, and it requires a legal mind to determine whether or not his bond is still in effect.

In the first place, Whipple's bond was approved and \$500 for the first year's premium was ordered paid. Auditor Hayden refused to attest the bill on the ground that it was illegal for the county attorney to recommend its action as to pay for an official's bond, and the board then rescinded its action.

The law gives Mr. Whipple ten days to get his new bond. This period is up Friday. Last Saturday morning proceedings came up before Judge Ensign to annul the bond. It was shown that there was an issue of fact, a trial was ordered, and the only thing to do was to strike the case from the calendar and put it on the March general term calendar.

On the other hand, it is claimed that the bond made recently is still in effect, that it has not been cancelled and that if Mr. Whipple pays the premium he will be all right.

SENATOR MORGAN M.D.

Represents an Attempt to Shut Off Discussion.

Washington, Feb. 15.—Mr. Morgan's resolution for the abrogation of the Clayton-Bulwer treaty, came up in the senate today and precipitated a heated parliamentary fight which ended unexpectedly. Upon motion of Sherman, the senate went into executive session.

As soon as the doors were closed, Senator Morgan took the floor on the Clayton-Bulwer resolution. He was apparently very angry, and his remarks were along the line which the open session indicated. He had given notice of an intention to discuss this resolution, and the usual courtesy of the senate would have allowed him to proceed. He served notice on Mr. Sherman, that he could not hasten action on the arbitration treaty by any such course. The abrogation of the Clayton-Bulwer treaty was being considered in connection with the arbitration treaty and the subject was one which should have a free and fair discussion.

Senator Morgan continued to talk on the Clayton-Bulwer treaty, and his resolution until 2 o'clock, when the point was made that the arbitration treaty was being considered, and it was taken up.

ALMOST A PANIC.

Much Excitement on London Stock Exchange.

London, Feb. 15.—The stock market opened weak this morning, with English consols showing a decline of 15-16 for money and account, compared with the closing quotations of Saturday.

American securities showed considerable weakness with the decline ranging from 3/4 to 1/2, the latter being St. Paul common stock. The American situation produced real alarm and almost a panic on the stock exchange.

Consols fell 1/2, and there was a general decline in foreign securities. Home railroads were in a state of collapse and Americans were left flat.

Towards the close of the afternoon the panic on the stock exchange, which was largely due to the American situation, subsided on the publication of the semi-official statement on the German question, and closed decidedly improved. Consols recovered.

THE BEILIN BOURSE.

Berlin, Feb. 15.—Business on the bourse here today opened quiet in all departments, owing to reports from the East, aggravated by a panic from Vienna, but prices closed firm on the semi-official report by the German government.

NEARLY FIVE MILLIONS.

A. M. Billings' Property Disposed of By Will.

Chicago, Feb. 15.—The will of Albert M. Billings, late president of the Home National bank, and formerly head of the People's Gas Light and Water company, was filed today. The value of the estate figures up to nearly \$5,000,000 and includes large mining interests in Minnesota and Michigan and other property in New York and Wisconsin.

His Illinois holdings consist of \$300,000 in personal property and \$300,000 in real estate. Nearly the entire estate was left to his widow during her life time. After her death two-thirds of the property goes to his son, R. C. Billings, and one-third to his grandson, Albert M. Billings.

McLEAN TOOK A HAND.

Interferes with the Morning Paper's Fake Scheme.

An enterprising scheme to boom the sale of papers was sprung by the News Tribune management this morning, but the "fire sale method" of working off the paper's surplus has been defeated by the intervention of Mr. McLean.

Lieut. McLean, who was at the time in charge of the peace and welfare of the city, was started by hearing the news boys cry "Morning paper—all about the fire sale method." He lost no time in getting a paper—all about the fire sale method. He lost no time in getting a paper—all about the fire sale method.

GEN. SHELBY'S FUNERAL.

The Most Imposing Ever Seen In Kansas City.

Kansas City, Feb. 17.—The remains of the late Gen. Joseph O. Shelby were laid to rest in Forest Hill cemetery at noon today after services held at the residence of Mrs. Shelby, and her daughter had been forbidden by their physician to attend the funeral. The casket rested on a raised platform, and was surrounded by a mass of palms and flowers. Two pieces of field artillery were placed at the sides of the platform, and the service took place. Thousands of people lined the streets through which the procession passed, and at the army the crowd was terrific. The main part of the army was composed of the veterans of both armies who were there 2000 strong.

Governor Lon V. Stephens and his staff and many officers of both sides occupied prominent places. Mrs. Shelby and her daughter had been forbidden by their physician to attend the funeral. The casket rested on a raised platform, and was surrounded by a mass of palms and flowers. Two pieces of field artillery were placed at the sides of the platform, and the service took place. Thousands of people lined the streets through which the procession passed, and at the army the crowd was terrific. The main part of the army was composed of the veterans of both armies who were there 2000 strong.

At the cemetery, after a brief service, the body was placed in a receiving vault, where it will remain until a suitable time when the eighty members of his command he has been selected. Government offices were closed during the day.

WISCONSIN LEGISLATURE.

Resolution Expressing Sympathy With the Cubans.

Madison, Wis., Feb. 17.—(Special to The Herald.)—The senate passed today a resolution of sympathy with the Cuban people, and a resolution expressing sympathy with the Cuban people. TRUELSEN

Duluth's Mayor Was a Caller on the State Solons Today.

Donnelly Wants to Exempt Homesteads to the Value of \$1000.

Snyder Bill For a Tax For State University Hotly Opposed.

St. Paul, Feb. 17.—(Special to The Herald.)—Mayor Truelsen was on the floor of the house today, having come from the municipal charter meeting in Minneapolis to visit the Duluth delegation. He is a sanguine of good results from the meeting, and expresses himself as confident that a general charter bill for Minneapolis, St. Paul and Duluth, modeled after the present St. Paul charter, will be passed by the legislature for action. The St. Paul charter is, in his opinion, the best, and he heartily approves of the idea of having a responsible head to municipal affairs, who can be called to account if things go wrong. It is as seems probable, the delegations from the three cities can agree on a measure applying only to those cities, he fully believes all the so-called country members will vote for it. The mayor leaves for home this afternoon.

The Scott bicycle license bill was favorably reported from the committee, as also were the senate bills for state inspection and weighing of grain at Little Falls, the Good seed grain law bill and the Dunn bill requiring citizen-ship and qualification for all public employments.

Mr. Staples introduced a resolution instructing the reapportionment committee to limit the senate to seventy-five members and the house to 114 members, and stated that he would move its adoption tomorrow.

An innovation was proposed when Representative Ignatius Donnelly introduced a bill for a constitutional amendment exempting homesteads from taxation to the value of \$1000. Among the new house bills were the following:

Committee on general legislation, providing for care and future treatment of illegals by counties. General orders.

Donnelly, constitutional amendment regarding exemption of homesteads from taxation to the value of \$1000. Harshorn, to repeal Royalty city charter.

McNeil, for protection of baggage and valuables on sleeping cars. Railroads.

Staples, to amend law for elementary normal instruction in high schools and appropriating \$1000 annually for same.

Brustein, a pure food bill. Public health.

House classifying beer, ale, etc. Public health.

The house then went into committee of the whole, Kendall presiding, for consideration of bills on general orders, the following being recommended to pass:

H. R. 45, Lovely, allowing savings banks to deposit money in the Chicago, the present law only including Chicago.

The Snyder bill for the tax for the state university came in for a warm discussion. Mr. Jackson and Mr. Harshorn were the principal speakers, holding that the legislature should have more control over the university appropriation than the executive.

Anything like a standing appropriation for any institution. The bill was finally sent to the committee on appropriations and the house adjourned.

THE SENATE.

St. Paul, Feb. 17.—(Special to The Herald.)—In the senate this morning a constitutional amendment was received from St. Paul Typographical union No. 29, endorsing the investigation of the labor bureau.

Senator Johnson introduced a remonstrance against S. F. 84, Senator French's bill, prohibiting theatrical performances on Sunday.

Senator Hale called up his resolution to prohibit smoking in the senate chamber or committee rooms.

The resolution was adopted. Senator Potter offered a resolution sending greetings to the National Buttermakers' association at Oatman, and it was adopted.

On motion of Senator Green, S. F. 4, exempting typewriters and sewing machines, was passed with the house amendments.

Senator Wing's bill fixing the charge for naturalization papers at \$1, with the house amendment giving honorable discharged soldiers and sailors their papers free, was taken up, and on motion of Senator Wing, the senate declined to concur in the amendment and a conference committee, consisting of Senators Wing, Green, Cronkite, was named. The following bills were introduced:

Cronkite, to amend the law of 1870 relating to saloon licenses. Temperance.

Morgan, to facilitate the settlement of estates. Judiciary.

Porter, to amend the law of 1891 relating to delinquent taxes. Taxes and law taxes.

WARRING

Commanders of the Foreign Fleets Issue a Warning to Greece.

Any Attack on Crete or Adjoining Islands Will Be Repelled.

The Sultan Regards the Trouble as a Blessing in Disguise.

Constantinople, Feb. 17.—(Copyright, 1897, by The Associated Press.)—There was a meeting of the commanders of the foreign fleets today on board the Italian flagship and the situation was discussed in conference under the instructions. It was resolved to take further steps toward bringing about a more peaceful state of affairs in Crete, and a joint statement was drawn up and sent by the Italian commander, who is in command of the united fleets, to the Greek consul here. The note informed the king of Greece that any attack on Crete, Heraklion or Sitia would be repelled by the fleets of the foreign powers in Cretan waters.

This step upon the part of the representatives of the powers has caused some alarm in Greek circles, but it is taken as a warning to the Christians and Greeks to cease fighting. It is still believed that the powers will, in some manner, sanction the annexation of Crete to Greece.

The sultan has informed the ambassadors of the powers that in view of the grave attitude of Greece, he has been obliged to adopt measures to defend the situation. At the same time the sultan took occasion to express his satisfaction at the adoption of the detachments of marines at Cana, France, Great Britain, Italy and Austria for the restoration of order in Crete.

In spite of this peaceful outlook, it is known that the debarkation of the Greek forces in Crete caused a great sensation at Yildiz kiosk, and it required the use of much tact on the part of the ambassadors to prevail upon the sultan to accept the situation as it is now presented.

Anti-Turkish manifestations are reported to have occurred at Artta and Preveza, in Thessaly, shots having been fired and a Turkish frontier guard killed. It is hoped, however, that no further trouble will occur, although the Greeks are known to be in a hostile attitude toward the sultan. The sultan's views are that Greece should not have acted as defiantly as she has in the matter of the Cretan war, and that the Turkish empire, and it is this feature of the complications which is having the most serious effect on the Turkish empire, and it is more important changes in the map of the Turkish empire.

To the sultan seems to be the old story of its being an ill wind which blows nobody good, and he is credited with hoping that his obedient friends of Greece in the matter of Crete may be placed to his credit when the long-discussed and much-postponed "reforms" of the Turkish empire come into effect. The action of Greece may have been nothing more than a coincidence, it is remarked, but it is out of such coincidences that diplomacy is framed.

There was an incident at the People's theater in the Stamboul quarter yesterday evening which was regarded by many people as being an attempt to provoke another outbreak on the part of the Muslims. Twenty Albanian soldiers of the Yildiz palace guard were among the audience, and suddenly these soldiers discharged their revolvers in the air, causing a terrible panic, a rough-and-tumble fight followed, during which a bystander was killed and the two gunmen were wounded and the two gunmen were arrested and sent to the nearest police depot, previous to being handed over to the military authorities of the Yildiz kiosk.

It has been announced in the newspapers here that the Turkish minister of the council of state, that he is to be recalled immediately and that the Greek minister here, Prince Madiroco, is to be given his passports, but as this dispatch is sent the matter has not been affirmed and the council may have been induced by the ambassadors to delay the matter indefinitely. It has been found posted in the newspapers demanding the death of the sultan.

POWER & SETTLE

THIS STORE

Has never ceased to grow from the time it opened its doors—and to this the crowds themselves can testify.

What is the Great Propelling Force of a Dry Goods Business?

Good Will

tells the whole story. Gain the good will of the public and you gain its trade. The foundation of how to do it is laid down in the ever-unalterable principles of right and wrong. In every transaction treat people honestly, and you have their good will, and in a mercantile life, their support, their trade, and the trade of their friends. And where does it end? It never ceases; it goes on to the end of time. One by one the daily crowds grow stronger, and the volume of sales larger and more convincing that the small profit system is the one which always satisfies and brings to us the great volume of business for which we started out to gain ^{THROUGH ITS METHODS} in Duluth,

WESTERN
Men Returning From the Woods Because Camps Are Closing Down.
Great Depth of Snow in the Woods Interferes With Work.
Dr. Graham a Candidate For Health Officer—Merritt-Robbins Wedding.

"Pretty Pill"
says
Pretty Poll
She's just "poll parrot." There's no prettiness in pills, except on the theory of "pretty is that pretty does." In that case she's right.
Ayer's Pills
do cure biliousness, constipation, and all liver troubles.

WOULD BE HEALTH OFFICER.
West Duluth has a candidate for city health officer to succeed Dr. W. W. North in the person of Dr. D. Graham, who has been frequently mentioned in connection with the position. He will have strong endorsements from the West End.

MERRITT-ROBBINS WEDDING.
The marriage of Miss Carrie Merritt and M. L. Robbins at the home of the bride's mother on Grand avenue and Thirty-third street last night was a most pleasant event. The ceremony was simple but impressive. There were a small party of friends and relatives of the happy couple in attendance, who were entertained at a delightful wedding supper after the nuptial knot had been securely tied. They will make their home with the groom's parents on Traverse street near Thirty-eighth avenue west.

BROKE HIS ARM.
The little 5-year-old son of W. H. Smith, of the Iron front street works, met with a painful accident Tuesday evening. While playing on a chair at home he carelessly climbed on the back of it and he and the chair fell to the floor, breaking his arm.

SKATING CARNIVAL.
Tonight will be a brilliant one at Gish & Noxon's covered rink, and it is expected that one of the largest crowds of the season will be in attendance. There will be a variety of skating carnival, the leading attraction being the attempt of D. N. Morrison to break the world's one-half and one-quarter mile records, which he has made in the past. There will be several amateur events, one of which will be for the amateur championship of Duluth. The ladies of the Presbyterian church will serve box lunches.

MARTIN MCCALL INSANE.
Martin McCall, of West Duluth, was taken before Judge A. J. Buehler yesterday afternoon to be tried for insanity. He is 26 years old, and was released from the asylum at Piquette Falls about a year ago. He imagines himself to be Jesus Christ, clothed with power and authority to fill any number of churches. If adjudged insane, he will be sent back to the asylum.

WEST DULUTH BRIEFS.
Mrs. E. E. Kelso, wife of Sergt. Kelso, of the police force, is very ill, and her recovery is despaired of.
Ed Ward, of Oshkosh, will leave tomorrow for the Rainy Lake country.
Morris Kastner, of the Great Eastern, has returned from a short business trip to New York and Chicago.
A little child of R. F. Folkert at Spirit Lake is seriously ill.
J. O. Hancock is engaged in getting up a special descriptive edition of the West Duluth Sun. It will contain descriptions of the business and manufacturing interests of this part of the city. It will be issued early in March.
The Woman's Christian Temperance union enjoyed a pleasant and instructive discussion of temperance hospitals at the residence of Mrs. A. A. Atte, strong yesterday afternoon.
The Foresters will give a masquerade ball in A. O. U. W. hall next Monday night.
The Ashbury Methodist Church missionary church met yesterday afternoon at the residence of Mrs. Potter at Fifty-eighth avenue west and Nicollet street.
A son was born to Mr. and Mrs. Alfred Nelson at 4221 West Seventh street Tuesday.
Miss Nettie Beebe, of Oshkosh, who has been a guest of C. Buehler for some time, has returned home.
A car loaded with cattle for K. O. Ralstad's packing house on Seventy-sixth avenue west was derailed near the St. Paul & Duluth depot yesterday. Deep snow on a side track was the cause of the accident.

NOTICE TO HERALD READERS.
Persons having communications, announcements or news items of interest to West End readers of The Evening Herald, will please leave them at the office of L. A. Barnes, Room 3, Manufacturers building, and they will be given prompt attention.

West Duluth Covered Rink.
Races tonight. City held.
A MARIPOSA SALE.
San Francisco, Feb. 18.—A sale has been made of one-sixth interest in the celebrated Mariposa island. This is the first transaction of this kind since 1887, when the present owner came in possession. The purchaser is the California Exploration company, a London syndicate. The Mariposa grant consists of 45,000 acres of land, on which is located about eight miles of the mother lode.
A NEBRASKA JUDGE.
Washington, Feb. 18.—William H. Munger has been confirmed as judge of the district of Nebraska.
Crover
Will return from one of his hunting trips in time to take part in the ice carnival. Friday evening next. Go and see him. Tickets at Boyce's Drug store.

NEW YORK STOCKS.
Foreign Weakness Felt on the American Market.
New York, Feb. 18.—The receipt of low London prices and moderate selling by large houses, coupled with liquidation in the specialties, imparted weakness to the initial dealings. Tobacco and Manhattan scored the extreme loss of 8 per cent each. Trading was in moderate volume, with the specialties absorbing the bulk of the dealings.
The pressure to sell soon abated, and under the leadership of Manhattan, in which a recovery of 1 1/2 per cent to 88 was scored, a better tone developed, with some of the usually inactive stocks rising materially. Notably, Chicago, which figured for 2 per cent, and rubber preferred, 1 per cent. Business, however, continued to be confined to the rally. The announcement that a change of motive power was contemplated by the Manhattan by the sale of the stock, which is largely engrossing the attention of the leading financial interests.
The trading was irregular, with quite noticeable changes in some shares to midday. Tobacco rallied 1 1/2 to 73 1/2, and reached 71 1/2, and Missouri Pacific declined to 104 on renewed liquidation. The statement of the company for the second week in February, showing an increase of \$10,000 in earnings, and the fact that the stock had caused a fractional recovery. However, it was sold freely, and stop orders were executed.

THE PRODUCE MARKET.
Trade improved slightly in the Michigan street market. Great expectations are based on the middle of March. Eggs are plenty and of good quality. Quite a little green stuff is in the warm corner.
WHEAT.
The quotations below are for goods which are in lots on the open market, in filling orders, in order to secure best goods for shipping and to cover cost incurred, an advance over jobbing prices has to be charged. The figures are changed daily.
